Equipment reference	DEMO-HVAC-01
System	Central split air-conditioning system
Example model	DEMO-AC-300 / fictional model
Indoor location	Utility closet
Outdoor location	Side yard equipment area
Recorded installation	January 8, 2026 (fictional)
Manufacturer serial	Not displayed in this public sample
Supporting documents	Example commissioning summary below; no manufacturer manual supplied.

Sample commissioning summary

The fictional handover entry records an equipment identification label, thermostat demonstration, and delivery of the owner information pack. It illustrates recordkeeping only and is not proof of testing or a contractor certification.

Documents to retain with a real system

Manufacturer owner manual; installer commissioning report; invoice; warranty registration confirmation. Use the actual model-specific documents for operating and maintenance instructions.
