SAMPLE DOCUMENT / NOT A CUSTOMER RECORD

Roof project document register

Demo House | Demo ID DMO-ZGQC-1D7Q-DKRR | February 20, 2026

A sample index for finding the paperwork behind a roof project. This is a Dwellprint demonstration summary, not a permit or an approval from any authority.

Project reference	DEMO-ROOF-001
Property	Demo House
Example scope	Roof-covering replacement
Recorded period	February 2026 (fictional)
Permit identifier	Not issued - demonstration only
Authority / contractor	No real authority or contractor represented

Example document checklist

Scope and estimate	Example register entry; no contract attached
Permit application	Placeholder reference; no application submitted
Approved permit	Not supplied in this demonstration
Inspection outcome	Not supplied or verified
Completion photos	Would be linked to the project record
Warranty paperwork	Would be linked after receipt

Why keep a register?

It connects each document to the project it describes and shows what still needs to be collected. A real record should preserve original documents without presenting an internal summary as official approval.
